

Introduction

Welcome to the Lydiard Millicent Parish Plan.

This document represents the views/opinions of Parishioners which have been sought from our Community, by public meetings, steering groups, questionnaires and often straight talking over the past sixteen months.

We hope that this document together with its principal observations will be embraced by the Parish Council, not as a mandate, nor a wish list, but instead as opportunity to engage further with the community in the support of delivery groups who will get on with the next process of taking your ideas and delivering tangible results for the benefit of our Community

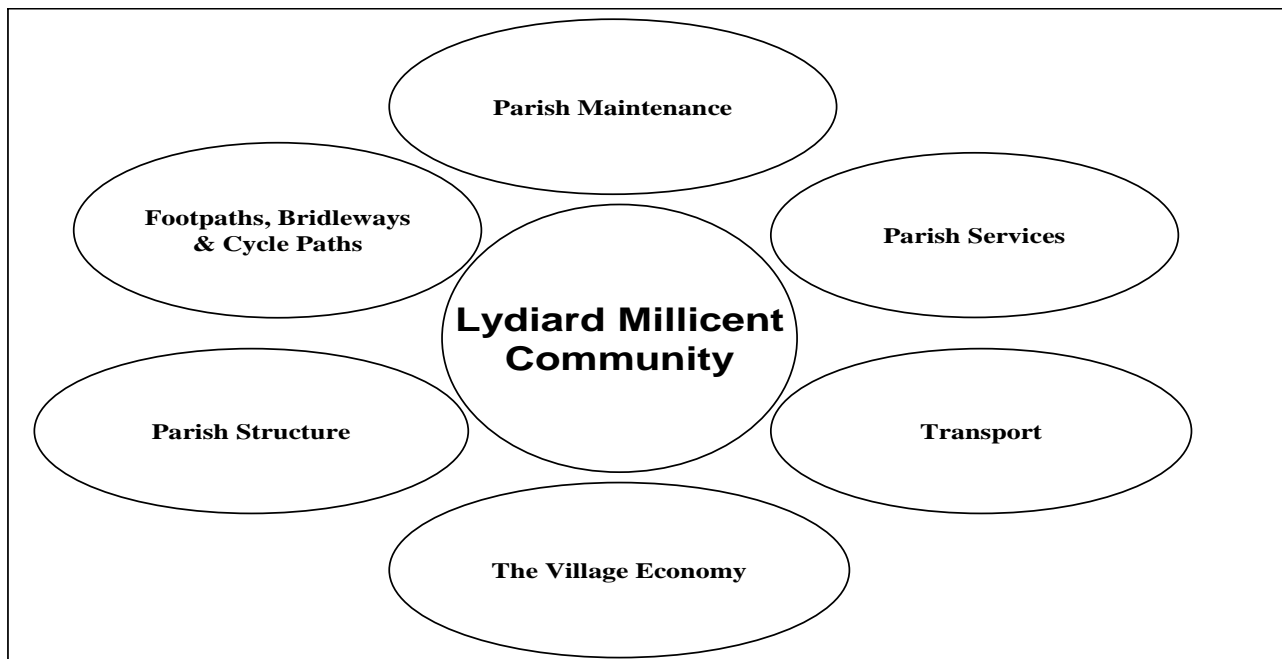

Our Parish Plan is not a mandate; it does not reflect the total views of our Community. Although over 40% of the community responded to our questionnaire, the information gathered, together with statistics and narrative, are representative of all those Parishioners who contributed not only to the working groups but also in their responses to the questionnaire. We are most grateful for everyone's contribution.

We hope that during your journey through our Parish Plan, we will ignite your interest and encourage you to volunteer and help the Parish Council to build a Parish to be proud of, not just for today, or even tomorrow, but for the future.

Finally, our thanks go to all our helpers who without their support, guidance and encouragement our journey would have been far more arduous and also our sponsors for providing the support to enable us to complete our Parish Plan

Thank you for spending your time with us,

Lydiard Parish Plan Steering Committee,
April 2005 Our Working Groups.

Lydiard Millicent Parish Plan Steering Group
